

**MEDICAL BOARD OF CALIFORNIA**  
Complaint Investigation Office

June 8, 2018

**PERSONAL AND CONFIDENTIAL**

Tracy Lystra  
[REDACTED]

Subject: Anthony S. Bianchi, M.D.

Case Number: 8002016023020

Dear Ms. Lystra:

The Medical Board of California (Board) has completed its investigation of the report of Settlement, Judgement or Arbitration Award filed with the Board pursuant to Business and Professions Code section 801.01. The care and treatment provided to you by Dr. Bianchi was thoroughly investigated for possible violations of the Medical Practice Act.

Dr. Bianchi was interviewed and the entire case was reviewed by a medical professional and a legal professional with specific experience in filing administrative actions against health care professionals.

Based upon the totality of our investigation, considering all the evidence and mitigating factors, it has been determined that the Board would be unable to establish grounds for discipline against the licensee. Therefore, this case is closed with no further action anticipated at this time. However, this case will be retained for a period of five years in the event we receive further information that warrants re-examining this matter.

Thank you for aiding the Medical Board in its mission to protect the public.

Sincerely,

  
Chris Jensen  
Special Investigator
